---

### ACCESS TESTING

The ACCESS test window where we will be testing our ELL students is from now until March 8th. I will have **testing signs** on the Media Center doors when ACCESS testing is occurring and during that time, **please use the printer and Riso machines in the front conference room**. Those machines can interfere with the sound/recording for the students completing the test. In addition, please **do not send students to the Media Center** during ACCESS testing times, we will be in testing mode. I will try to notify you all ahead of time so if you need to, you can plan and make copies accordingly.

### NAEP Testing

The National Assessment of Educational Progress (NAEP) will be given on **February 21st** in the Media Center. The Media Center will be closed **ALL DAY** on this day because it will be a secured testing location for a federal testing. **Students will not be permitted into the Media Center unless they are participating in the testing session.**

### Technology

I still **do not** have any loaner computers available, so please **do not** send any students to get a loaner from me. Please remember for broken screens (\$15) and lost/missing chargers (\$10), students must pay before receiving a replacement.

Current computer stats:

- 4 students who need to turn in a contract
- 6 students waiting for me to get more devices
- 10 students who need to pay for damages before they can receive a new device

### Chromebook Assistance - **NEW PROCESS!**

Please **do not** send students to the Media Center for Chromebook issues. Use the Google Form via QR code or the link [bit.ly/kmschromebookform](https://bit.ly/kmschromebookform)

### Important Dates

February 14th: Early Release Day

February 19th: No School

February 21th: NAEP Testing in the Media Center
